

JOINT CONSOLIDATION AGREEMENT

This Agreement is dated this 10th day of August, 2023, by the Town Board of the Town of Ticonderoga (the “Town”) on behalf of Town water districts 9N & 74 Water District (SW01), Street Road Water District (SW02), Alexandria Water District No. 1 (SW03), Homeland Water District SW04), Alexandria Water District No. 2 (SW05), Central Water District (SW06), Park Avenue Water District (SW07), and Shore Airport Road Water District (SW09) (the “Districts”) and witnesses the following:

Whereas the Town Board may consolidate government entities pursuant to Article 17-a of the General Municipal Law of the State of New York; and

Whereas, the Town Board authorized the Town’s engineers to provide an implementation report, which the Town’s engineers have submitted and which is attached to this Agreement as Exhibit A (the “Implementation Report”); and

Whereas, the Town Board intends for this Agreement to be the joint consolidation agreement pursuant to Article 17-a of the General Municipal Law.

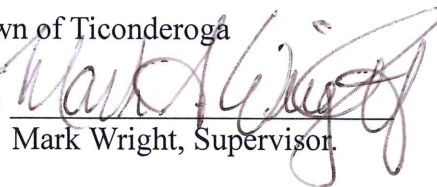

Now therefore, the Town Board on behalf of the above Districts agrees as follows:

1. Specifications of Agreement. The specifications required by General Municipal Law §752(2) are as set forth in Section 2 of the Implementation Report. The Town Board will, on behalf of the Districts, administer the Districts as set forth in accordance with law and the Implementation Report.
2. Endorsement of Agreement. The resolution of the Town Board of the Town endorsing this Agreement shall be attached hereto as Exhibit B.
3. Effective Date. This Agreement shall be effective immediately upon compliance with the procedural requirements of Article 17-a of the General Municipal Law and for billing purposes shall take effect January 1, 2024.
4. General Provisions. This Agreement shall subject to the laws of the State of New York.

In Witness Whereof, the Town Board has endorsed this Agreement as of the 10th day of August, 2023.

1. Introduction

This document sets forth the Consolidation Implementation Plan for the Town of Ticonderoga's Water Districts that was developed by the Town of Ticonderoga and its consultant, AES Northeast, PLLC. The Plan is the culmination of a year plus long effort between the Town and its consultants to determine the impacts of consolidation of water districts on rates and service delivery. The process was documented through a series of memos and a final summary memo prepared for the Town on October 26, 2021, with a public presentation of the proposed district on June 23, 2022. The final memo summarized and included the previous memos. The final memo has been included as an appendix to this report to help document the thought process of the project team. A considerable amount of time was spent trying to interpret the limited documents of the current districts to try to determine the original intent of the Town Board when forming previous districts and extensions. The attached document should help future Town Boards and consultants interpret the intent of the work performed through this process. Please note, however, that the attached memos are provided for reference only and provide documentation at that particular snapshot in time. The memos, including the October 26th memo, are not intended to be interpreted as the final document; that is the purpose of this Implementation Report. The final intention of any particular parcel may have changed between the previous memos and the final publication of this report. For any discrepancies between any of the memo documents and this Report word document, tables, and/or figures, the Implementation Report shall prevail. The process which was followed is summarized in **Appendix A: Ticonderoga Water District Consolidation/Expansion, letter report to Town Supervisor dated 10/26/2021.**

The purpose of this Consolidation Implementation Plan (The Plan) is to summarize the actions that will take place to move forward with Town Water District Consolidation and to provide details on how services will continue after consolidation. The Plan will be submitted to the Town of Ticonderoga Town board for adoption at a public Board Meeting. If The Plan is approved by the Town board, the Town will proceed with actions needed to consolidate the water districts as outlined in this plan.

This report is being prepared in accordance with the New York State Department of State (DOS) Work Plan requirements. This Consolidation Implementation Plan identifies items that are recommended for completion prior to, or in conjunction with, consolidation and the estimated costs of completion.

The following sections of the Consolidation Plan follow the requirements outlined in the Government Reorganization and Citizen Empowerment Act (NYS Department of State, 3/21/10).

Upon ratification of the District Consolidation, this report puts forth the information to expand the newly created single district to include additional parcels.

2. Elements of Proposed Consolidation Agreement

A. Name of Each Local Government to Be Consolidated

Eight water districts are to be consolidated and they include: 9N & 74 Water District (SW01), Street Road Water District (SW02), Alexandria Water District No. 1 (SW03), Homeland Water District (SW04), Alexandria Water District No. 2 (SW05), Central Water District (SW06), Park Avenue Water District (SW07), and Shore Airport Road Water District (SW09).

The Water Districts including prior extensions are: 9N & 74 Water District, 9N & 74 Water District Extension, 9N & 74 Water District Extension 1, Alexandria Water District 1, Alexandria Water District 2, Homelands Water District, Park Avenue Water District, Shore Airport Road Water District, Street Road Water District, Village (Central) Water District, Village Water District Extension 1, Village Water District Extension 2, Village Water District Extension 3, Village Water District Extension 4, and Village Water District Extension 5.

All districts and extensions are included in this district consolidation.

B. Name Of Proposed Consolidated Local Government

The name of the new consolidated water district will be Ticonderoga Consolidated Water District.

C. Rights, Duties & Obligation of Proposed Consolidated

There will be no change to the rights, duties, and obligations of the consolidated special districts. The proposed consolidated water district shall assume the rights, duties and obligations of the former Town of Ticonderoga water districts. Any contracts specific to existing Town water districts will be amended to reflect the new consolidated district.

D. Territorial Boundaries

An extensive review of the eight existing water districts and extensions was completed as a part of preparation for this district consolidation process. The existing districts' metes and bounds description were overlaid in a CAD Program with the 2019 Essex County Real Property Shape File for comparison of the proposed consolidated district includes those parcels in district. Except as noted below, parcels, either fully, or partially captured by the existing boundaries were included in the consolidated district.

The new boundary of the consolidated district has been drawn and matches the boundaries of the existing districts and extensions.

1) Existing District Boundary

Refer to **Figure 2.1**: *Existing Water District Map*.

The existing districts were drawn utilizing the Metes and Bounds descriptions from map, plan, and reports developed for each district. The map has been drawn showing the districts via the parcels from the 2021 Essex County Real Property Shape Files. Users physically connected to a district and receiving water, but not yet included within the boundary of a district, referred to by the Town as D-Book's users have been identified on the map for completeness.

2) Proposed District Boundary

A map has been produced showing the proposed districts utilizing the 2021 Essex County Real Property Shape File. A map utilizing a metes and bounds description has been included in the district expansion and is included below.

Refer to **Figure 2.2**: *Consolidated Water District Map*.

The metes and bounds map and description has been prepared for the expanded district and is included below.

3) District Intent

It is the intention of this Implementation Report to include all parcels, in their entirety, in the proposed consolidated district. The Metes and Bounds description was developed based on the 2023 Real Property Shape file and the corner and edges of properties for boundary properties were used. If a property boundary line is resurveyed for additional detail or changes due to a subdivision, consolidation etc. the intent of this Report is as follows:

- a) Any parcel included in this district consolidation are intended to be included in total. Any parcel not currently included, and not included in future extensions, is intended to be excluded until such time as it is formally included through a proper extension process.
- b) Should a discrepancy occur through the drawing of the boundary, then this thought process shall prevail.

4) Special Considerations: District

Throughout the consolidation process, some specific areas have been identified that require special instructions. Please refer to the following:

Street Road and 9N & 74: When these two districts were created, the boundaries appeared to be offset a specific distance from the road. Although the reason is not known as to why the boundaries were drawn this way, the Town has chosen to not change the Street Road and 9N & 74 District Boundaries (excluding the extensions that are south of NYS 74/22) at this time. Additionally, some parcels located in the existing district boundaries are areas without infrastructure in place to service the users. A large number of the residents that are in the areas described above do not wish to be connected to the public water system. The Town may decide to contact these users to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.

5) Special Considerations: Individual Parcels

Electrical Utilities: For the ease of drawing boundaries, some electrical parcels will remain as partial parcels. The district boundary could not be easily drawn around the property boundaries without causing larger issues in the consolidation process.

Partial near Abercrombie St. (Tax Map ID: 150.51-6-25.000): Only a very small amount of the property is located within existing district boundaries, classifying it as a “partial”. The property in question does not currently receive a bill nor use water from the Town’s water distribution system. The Town may decide to contact these users to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.

Partial near Defiance St. (Tax Map ID: 150.44-13-1.000): Only a very small amount of the property is located within existing district boundaries, classifying it as a “partial”. The property in question does not currently receive a bill nor use water from the Town’s water distribution system. The Town may decide to contact these users to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.

Partial on NYS Route 22(Tax Map ID: 150.2-8-5.000): Only a very small amount of the property is located within existing district boundaries, classifying it as a “partial”. The property in question does not currently

receive a bill nor use water from the Town's water distribution system. The Town may decide to contact these users to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.

E. Type And/or Class of The New Consolidated Local Government Entity

The consolidated special district will be a water district established pursuant to New York State Town Law Chapter 62 Article 12-A. Article 12-A provides for the establishment and extension of districts on the Town Board's own motion, subject to permissive referendum requirements.

F. Governmental Organization of Proposed Consolidated Special Districts

The organization will be consistent with NYS Town Law, NYS General Municipal Law, the Constitution of the State of New York, and will comply with all rules, regulations, and laws of the State of New York. The consolidated water district will continue to be operated by the Town of Ticonderoga Water and Wastewater Department as a special district by the Town of Ticonderoga. There will be no impact on elected or appointed officials and public employees or on the delivery of services associated with water district consolidation.

G. Fiscal Estimate of The Costs of And Savings Realized from Consolidation

The proposed district does not involve a capital improvement project to provide water to the service area. The formation of this district is therefore without additional debt service or any additional operations and maintenance outside of present costs to operate and maintain the Ticonderoga Consolidated Water District.

District Costs

The cost to consolidate included engineering and legal fees. The cost of this work has already been included in the annual budget and therefore annual user fees of the district.

District Savings

Cost savings will occur in time savings for administrative staff as a result of simplified billing. It is expected that existing labor hours will be utilized for other work. The work for consolidation also results in identifying billing errors and omissions which will result in increased water revenues.

H. Each District's Assets

The water district's assets are comprised of two components: fund balances that are associated with each district; and the infrastructure associated with the district.

As of April 5, 2023, the Town had the following fund balances in their water accounts totaling \$1,875,885.78, summarized by water district in [Table 2.1](#). Please note that these fund balances change as income is collected and payments are made. The exact total to be transferred will be determined on the date of the consolidation and transfer of funds.

Table 2.1 Fund Balances by Water District	
Water District	Fund Balance
9N & 74 Water District (SW01)	\$34,669.84
Street Road Water District (SW02)	\$49,274.07
Alexandria Water District No. 1 (SW03)	\$20,680.72

Homeland Water District (SW04)	\$10,936.31
Alexandria Water District No. 2 (SW05)	\$40,973.09
Central Water District (SW06)	\$1,569,249.80
Park Avenue Water District (SW07)	\$24,412.46
Shore Airport Road Water District (SW09)	\$125,689.49
Total	\$1,875,885.78

The Water District's assets include underground water distribution infrastructure, including pipes, valves, fire hydrants, gate, air relieve, and pressure reducing valves, and related materials. The assets also include source water well pumps, control buildings, chemical feed systems, surface water pumping and filtering equipment, as well as aboveground storage tanks. The assets also include the equipment to maintain such infrastructure.

I. Each District's Liabilities and Indebtedness

The proposed water districts currently have a debt service. Those parcels identified in the existing Shore Airport Road Water District (SW09) have an additional debt service that will continue until the debt is retired for those parcels. This debt will not be distributed across the remaining parcels in the consolidated district.

Refer to **Appendix B: Existing Water District's Indebtedness** for a copy of the debt schedule for both the overall district debt and the Shore Airport Road debt.

J. Terms For Disposition of Existing Assets, Liabilities & Indebtedness

Personal property and other fixed assets owned by the special districts at the time of consolidation will become the property of the consolidated district. Personal property includes vehicles, equipment, office furniture, computers, and any other item commonly considered to be personal property. Fund balances existing at the time of consolidation will be transferred to the consolidated district. Existing district debt will be transferred to the newly formed consolidated districts, except as noted above for those parcels identified in the existing Shore Airport Road Water District (SW09). The Town of Ticonderoga cannot project whether or not there will be uncollected taxes upon the date of consolidation; however, any uncollected taxes managed in keeping with its current practices.

K. District Costs and Collection of Payments

1) User Rates

The user rates are established yearly and are based off an Equivalent Dwelling Unit (EDU), in which a single-family household is one EDU. New properties, and/or properties reevaluated within the proposed district will have their initial EDUs calculated based on the current land use classification for the parcel.

EDUs are calculated as follows:

- 1 EDU is one single family dwelling.

- 0.1 EDU is used for vacant lands within the district and as periodically adjusted by the Town Board to accurately capture the debt payment on which is the basis of this partial EDU rate.
- 2 EDUs are used for restaurants and businesses or as approved by the Town Board to account for relative water usage as compared with the water usage of a single EDU.
- 1 EDU per apartment or dwelling is used for multi-family dwellings.

The Town currently charges a quarterly user rate of \$120 per EDU. The rate is adjusted each year pending proposed budget updates and the actual number of EDUs connected to the system. This rate includes debt payments as well as operations and maintenance costs.

The process and costs will be the same for the consolidated district. The exception to this is for the parcels identified in the existing Shore Airport Road Water District (SW09). The district is charged for the separate debt service. This will continue for those parcels in keeping with the Town's current practice until the debt is retired.

Location	Singe EDU Debt/Quarter	Single EDU O&M/Quarter	Vacant Lot O&M/Quarter
Shore Airport Road	\$187.56	\$89.32	\$21.82
All other District Users	\$30.62	\$89.32	\$12.00

2) Connection Charges

For vacant parcels to be connected to the Town of Ticonderoga water system, a tapping fee is charged of \$600 for 3/4" to 1" and \$800 for 1.5" to 2" nominal pipe size. This includes fittings up to rights-of-way for which the Town of Ticonderoga's water mains reside. The Town also charges for labor and for road crossings if required, with no set charge for these services. These costs are incurred at the time of connection by the property owner. The exact charge is adjusted by the Town Board as needed to match actual costs.

L. Terms For the Common Administration and Uniform Enforcement of Local Laws, Ordinances, Resolutions, etc.

The Town will continue to enforce applicable local laws, ordinances and applicable resolutions and orders in the same manner as it currently enforces same.

M. Effective Date of The Proposed Consolidation

The effective date for the consolidation of the water districts will be January 1, 2024.

N. Time And Place(s) For Public Hearing

The Town of Ticonderoga, at its Town Board Meeting of 08/10/2023, passed a resolution to set the date of the Public Hearings as September 28, 2023 at 8:30 am and October 12, 2023 at 6:00 pm at the Offices of the Town of Ticonderoga for the Water District Consolidation Plan.

3. District Expansion Map Plan and Report

A. Introduction

This portion of report provides the information required in a Map, Plan and Report for District Expansion under New York State Town Law Chapter 62, Article 12-A.

1) Purpose

The Town of Ticonderoga wishes to add a number of parcels to the single water district created in Section 2. This section is intended to cover the Map, Plan and Report requirements of Town Law as part of the districting process.

Refer to **Figure 3.1**: *General Location Map*

2) Process

The Process of determining the final district boundary occurred in conjunction with the process identified in Section 1 above for the water district consolidation.

B. Existing Facilities

1) Source

The Town utilized two sources to serve the newly consolidated district and D-Books users that will be included in this district expansion.

a. Ground Water Source

The Town's groundwater source is located near the intersection of Street Road and Vineyard Road. The system includes two wells and a chlorination/control building.

b. Surface Water Source

The Town's surface water source is Lake George. The system operates using two (2) pumps to extract water from the lake and deliver the water to a diatomaceous earth filter plant located on Baldwin Road.

2) Distribution System

The water distribution system consists of a mix of cast iron, ductile iron and plastic pipes. The majority of the system is nearing past 100 years of age. Portions of the system have been upgraded through various replacement projects over the years. In a number of locations private water lines or services have been installed to connect to existing Town owned water mains. These private lines are a mix of materials and sizes, and their condition is suspected to be poor but is generally unknown. The Town requires pipes, both mains and laterals within the Town's rights-of-way to be brought to Town standards (appropriate materials and sizes based on engineering approval with appropriate appurtenances) and to have appropriate easements in place before the Town will take over ownership of pipe and appurtenances.

Refer to **Figure 3.2**: *Existing Water Distribution System*.

3) Water Storage Tanks

The existing steel tank on Mount Defiance Road was built in 1966 in conjunction with Baldwin Station to supply the southern side of the Town. The wire-wound, prestressed concrete tank on Chilson Hill was completed in 2019 in conjunction with the Street Road well source project.

4) Water Meters

The few meters that are installed within the Town are extremely out of date and can thus be considered obsolete. The rest of the Town does not currently utilize meters.

5) Design Flow

The Design Daily Flow is 1.5 MGD.

6) Impacts from Development

Growth and development within the water districts are controlled by the Land Use regulations of the Adirondack Park Agency. There are not many large, undeveloped parcels within the proposed water district, and few that are adjacent to the district. Many of these are located on the north end of the district and are included within the district as “partial parcels.” “Partial Parcels” are those that have a section of their land area within the district, and a section outside of the district boundary. Partial parcels to the northwest are in the Moderate Intensity Land Class while partial parcels to the northeast are in the Resource Management Land Class and partial parcels to the north are in the Rural Use Land Class. Few of the partial parcels in Resource Management are large enough to subdivide due to the average lot size requirement of 42.7 acres. There is only the potential to create an estimated six lots from two parcels large enough to subdivide. The potential for modest expansion exists from partial parcels in Rural Use due to the average lot size requirement of 8.5 acres. The potential for expansion is greatest for the partial parcels in Moderate Intensity due to the average lot size requirement of 1.3 acres. A single partial parcel in this part of the water district is nearly 255 acres in size and could theoretically yield up to 196 building lots.

Refer to **Figure 3.3: APA Land Classifications**.

C. Proposed Facilities

1) Proposed Upgrades

There are no planned infrastructure upgrades associated with the District Expansion.

2) Inadequate Infrastructure

Portions of the water district expansion have inadequate infrastructure, defined as infrastructure that does not meet customary engineering design criteria, specific town law or in the opinion of the Town Board would be a determinate to the Town of Ticonderoga and the water district users. No existing water mains or water services are being accepted with this expansion process. All infrastructure must meet current Town standards prior to any dedication to the Town.

Specifically, two areas are identified as have inadequate infrastructure:

Summit Street, Wayne Ave, & 3rd Ave: A few of the parcels that are being added to the district are serviced with private water mains that the Town currently does not wish to own and maintain due to the condition of pipes. For the logistics of drawing the proposed district boundaries, the Town has included some parcels but will not accept the inadequate infrastructure.

Mt Hope Ave.: Some parcels that are being added to the district are serviced with private water mains that the Town currently does not wish to maintain due to the condition of pipes. For the logistics of drawing the proposed district boundaries, the Town has included some parcels but will not accept the inadequate infrastructure.

D. Proposed Boundaries

Upon completion of the consolidation of the existing districts, the new district shall be expanded to include additional parcels. These parcels were added for one or more of the following reasons:

- a) Existing “D-Book” with services laterals connected to mains that are either already owned by the Town or acceptable for takeover by the Town.
- b) Existing users not officially in a district with services laterals connected to mains that are either already owned by the Town or acceptable for takeover by the Town.
- c) Existing users incorrectly identified in a district, but not formally included in said district with services laterals connected to mains that are either already owned by the Town or acceptable for takeover by the town.
- d) Existing users not connected to water mains or water services that are acceptable to the Town, however whose exclusion would cause for inconsistencies within the proposed boundaries of the water district. Refer to C.2 above for exclusions of inadequate infrastructure.

E. District Intent

- a) The intent of the district expansion shall match that of the district consolidation as identified in section D. 3) above.

F. District Map & Description

The official District Boundary Maps have been produced showing the proposed district utilizing Essex County Real Property Tax Maps. A description has been prepared for the expanded district along with a list of tax map parcels in Water District. These maps and descriptions will be filed with the Essex County Clerk.

Refer to **Appendix C:** *Proposed District Map & Description.*

A simplified map showing the new boundary with the remaining D-Books users, Parcels added to the district and partial parcels has been included for easier reference.

Refer to **Figure 3.4:** *Final Water District Map.*

G. Estimated Probable Costs

1) Proposed costs

There are no proposed costs associated with the district expansion.

2) District Costs

The proposed district expansion does not involve a capital improvement project to provide water to the service area. The district cost and indebtedness will follow that as identified in Section 2 above for the consolidation and formation of Ticonderoga Consolidated Water District Expansion #1.

3) User Rates and connection charges

Connection charges, payment of debts and the payment of the cost to operate shall match the consolidated district as identified in section 2 above.

H. Operation of the District

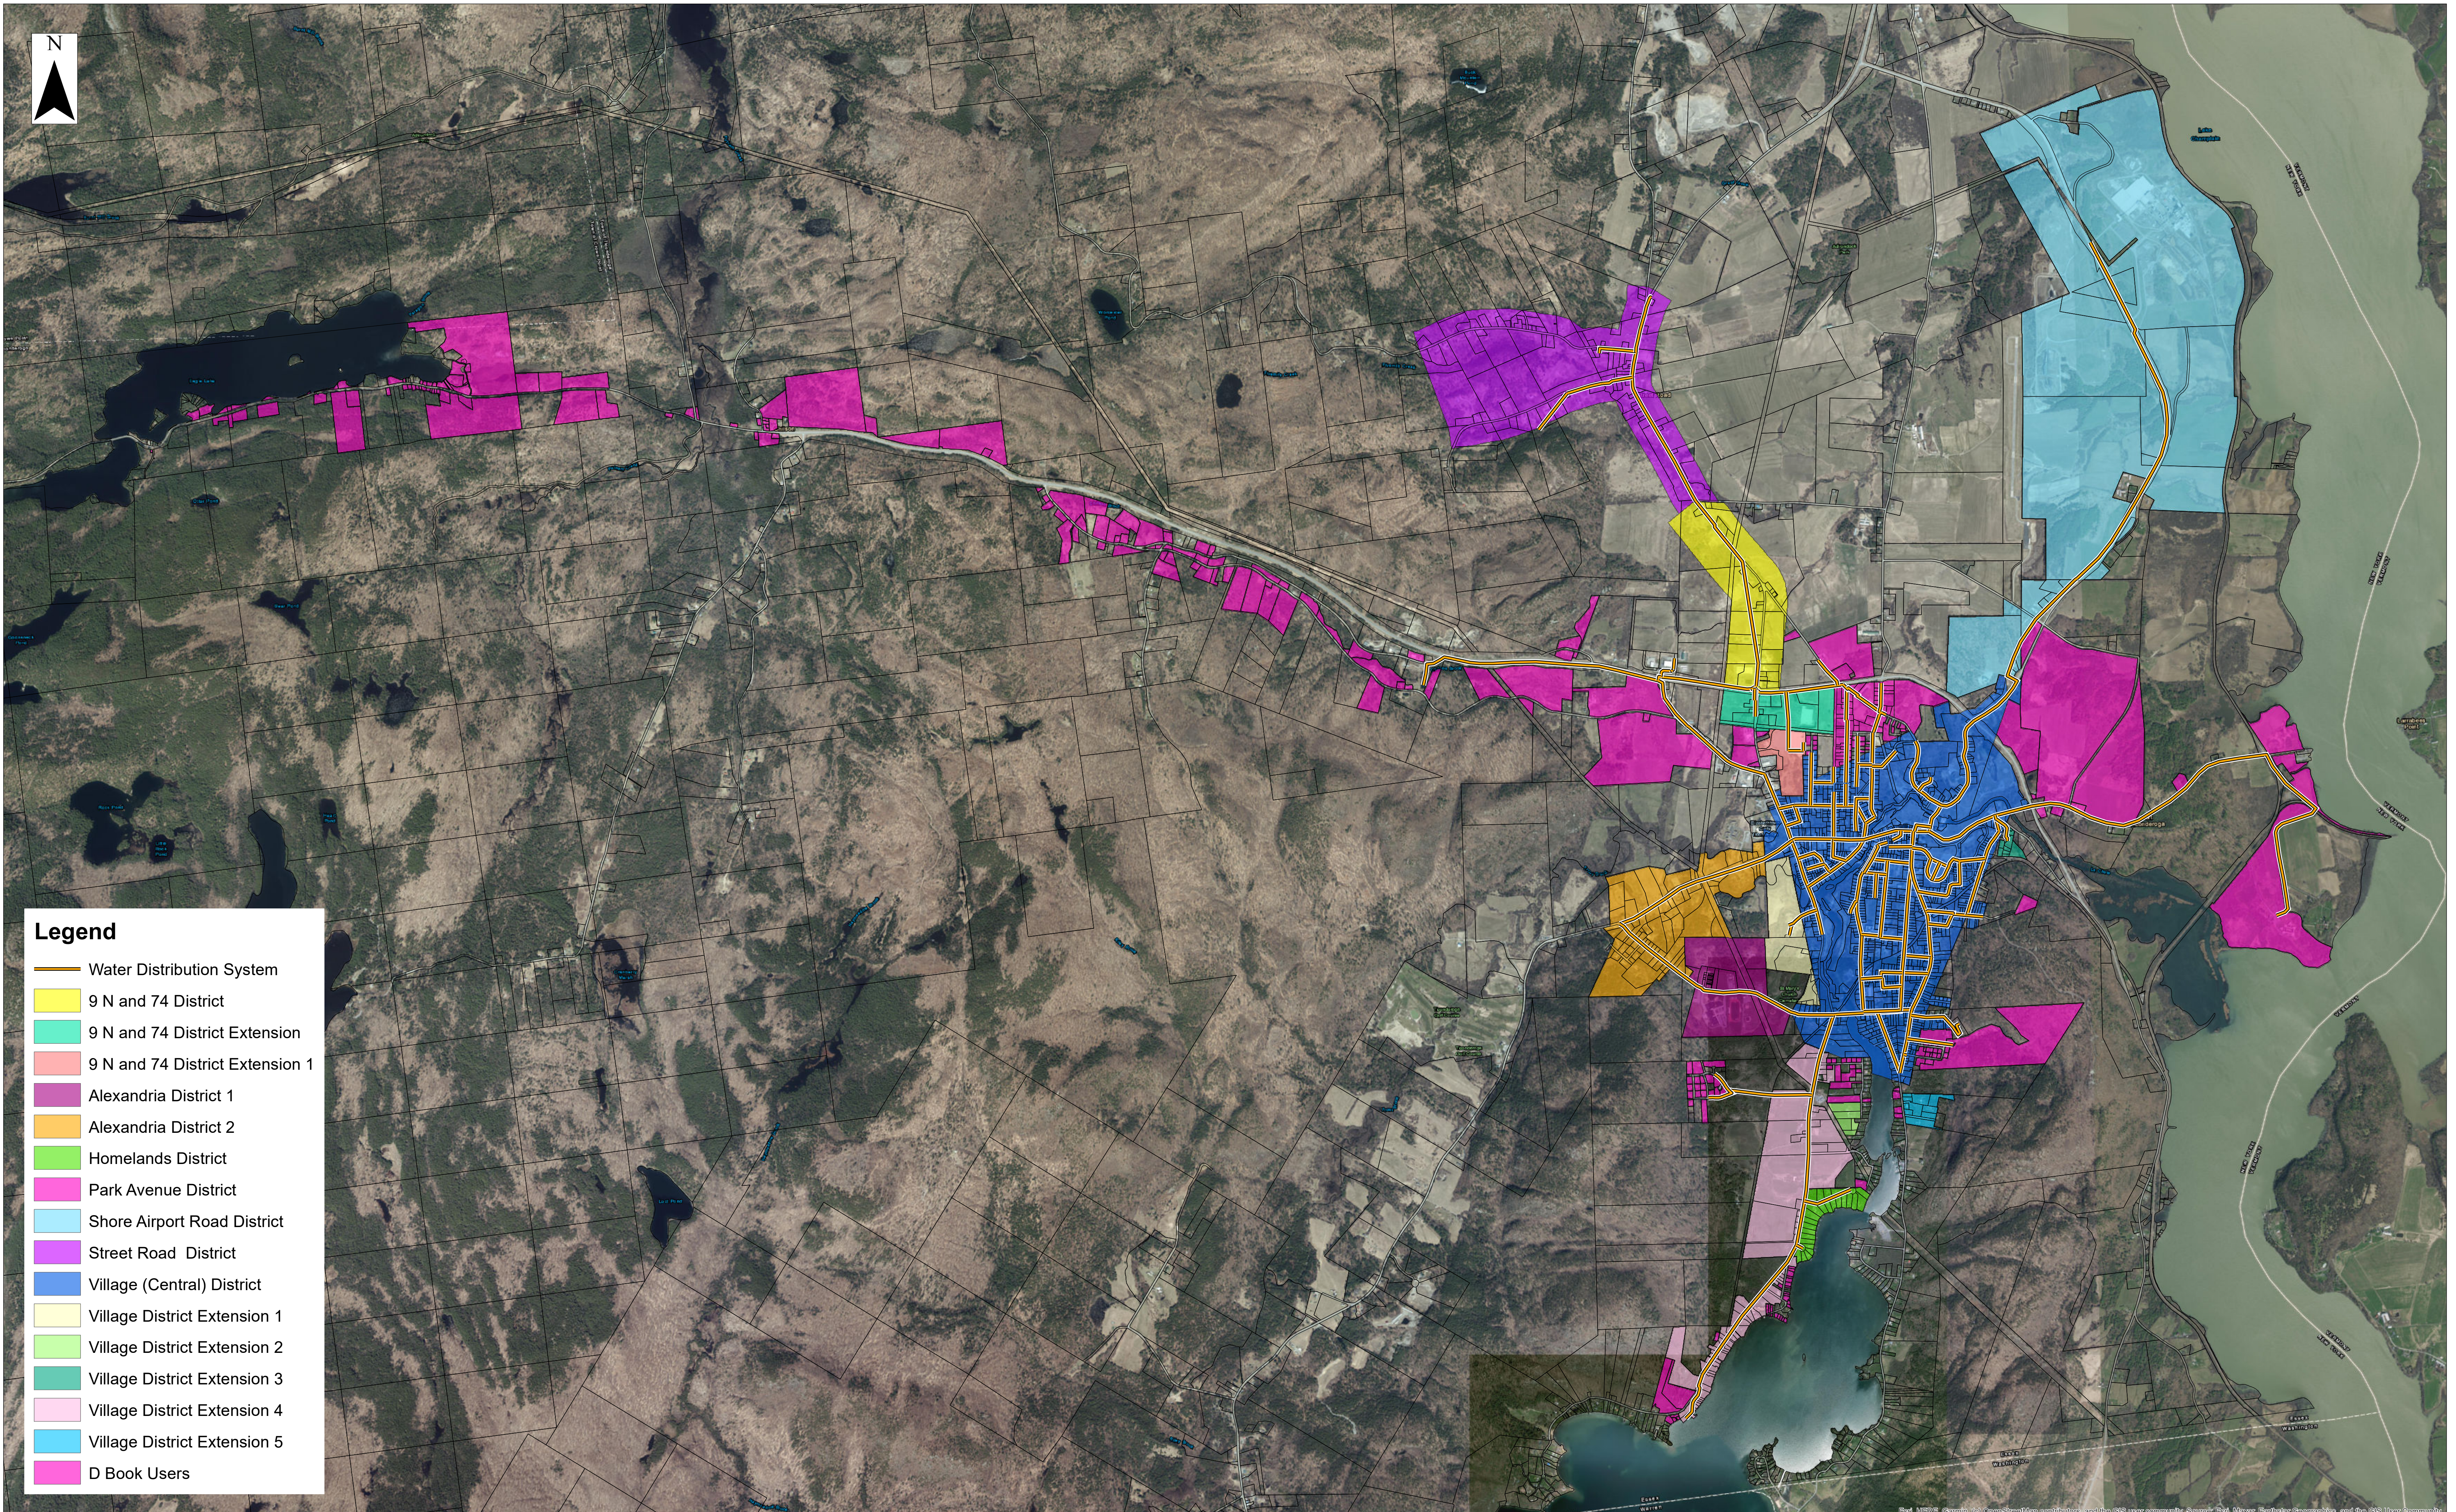

The expanded water districts will continue to be operated by the Town of Ticonderoga Water and Waste-Water Department.

To be inserted at a later date

Architecture, Engineering, and
Land Surveying Northeast, PLLC

October 26, 2021

Mr. Joseph M. Giordano, Town Supervisor
Town of Ticonderoga
132 Montcalm Street
Ticonderoga NY, 12883

RE: Ticonderoga Water District Consolidation/Expansion

Dear Mr. Giordano,

As part of the Phase 2 Water Project, AES Northeast has been working on completing a thorough database of all water customers in the Town of Ticonderoga in preparation for the installation of water meters. AES has been working diligently along with Town Staff and the Town Attorney, Matt Fuller, to complete this task. This process will provide key pieces of information for both the installation of water meters and produce a complete list of users for billing purposes.

To minimize the nuance of billing a metered water system with multiple districts, the Town is completing a district consolidation and expansion process. AES has been contracted by the Town to generate a global consolidation through a Map, Plan and Report to eliminate all interior district boundaries. Following the global consolidation, AES will complete a Map, Plan and Report which will execute a global expansion. Any parcels that are not currently in a district that the Town Board determines should be, will be added during this process. In addition, if the Board decides, there may be parcels that are currently not serviced but are in a district that the Board wishes to remove. This process would require NYS legislative action which the Town Attorney can discuss with the Board if that is the direction the Board wishes to proceed.

The overall districting process began with AES Northeast's survey team mapping the existing district boundary. This was executed by utilizing descriptions provided in previous Map, Plan and Reports which defines boundaries of existing water districts. Once that portion was complete, the Water Resources team began to import layers into ArcGIS to start compiling a database. The team then selected parcels extending past the current boundaries from the Town of Ticonderoga using the Essex County Real Property shapefile to create a starting point for the database. Additional parcels were added to the database to ensure no potential benefiting water users were excluded in the districting process. Then, by overlaying the existing district boundaries, the team classified the parcels into five different categories: Add to District, Confirmed, Dismissed, D-Books, Partial, and Question.

Procedurally, any users that are not currently in a district would be added to the expanded district in the consolidation and extension process. We will work with the Town Attorney on this once all questions are answered and decisions made on the parcels and districts.

The following is a list of definitions for classifications of the parcels:

- Add to District – Parcels that appear to benefit by a municipal water line and/or billed as in-district users that should be added
- Confirmed – Parcels that are completely within the existing district boundaries
- Dismissed – Does not appear to benefit on a municipal water line nor is close to benefitting, therefore will not be considered further.

P. (518) 561-1598 / (802) 655-0145 / F. (518) 561-1990

New York Headquarters: 10-12 City Hall Place / Plattsburgh, NY 12901
New York Branch: 4549 Route 9 / Plattsburgh, NY 12901
Vermont Branch: 147 Allen Brook Lane, Suite 103 / Williston, VT 05495

- D-Books – Outside district users that are classified as “D-Books” in the billing system.
- Partial – Parcels that are partially in the water district.
- Question – Parcels that the Team had questions for either Matt Fuller or Town Staff.

Throughout the consolidation process, it was determined by AES that it would be much easier to add two additional categories to the classification process: “Proposed_Add” and “Proposed_Dismissed”. By classifying parcels into an additional category allowed AES to streamline the process and group similar parcels together to discuss with the Town before making a final decision with them.

The following is a list of definitions for the additional classifications of the parcels.

- Proposed_Add – Parcels that are outside of district boundaries but are billed as if they are in a district.
- Proposed_Dismissed – Parcels in close proximity to the existing district boundaries, but are not served that the Town wishes to dismiss.

On January 21st, 2021, AES, Matt Fuller, and the Water Sewer Committee met and addressed questions that required Town input.

Additionally, the team subcategorized the classification into three subcategories:

- D-Books (Undecided) – Parcels currently classified as D-Books that the Town has not decided if they are to be added to the district or if they are to remain as D-Books.
- D-Books (Add to District) – Parcels classified as D-Books but are to be added to the district during the global expansion process.
- D-Books (Leave as D-Books) – Parcels that are classified as D-Books and are to remain as D-Books

After numerous meetings and discussions between AES, Town Staff, and the Town Attorney, a final list of classifications has been produced: Add to District, Confirmed, D-Books, Dismissed, and Partial.

Refer to **Figure 1.1**: *Proposed District Boundaries*.

Additionally, subcategories have been generated to inform residents of what how their classification may have changed.

Confirmed:

- Confirmed (No Change): Parcels that are already being billed and have no changes to their bills. Parcels are also already within district boundaries. This also includes any parcels that were split between two districts that can easily be resolved in the overall consolidation process.
- Confirmed (Unbilled): Parcels that are completely within the boundaries of the existing districts but are not being billed.

Add to District:

- Add to District (District Users): Parcels that were not previously within the district boundaries but being billed and categorized as if they are within existing boundaries.
- Add to District (D-Books): Parcels that were previously classified as D-Books, or outside district users, that are being added in the district expansion.
- Add to District (Unbilled): Parcels that were not previously billed or within a district.

Partial:

- Partial (Billed): Parcels that are partially within the district boundaries that are billed.
- Partial (Unbilled): Parcels that are partially within the district boundaries that are not billed.

D-Books (Out of District Users):

- No additional subcategories.

Refer to **Appendix A**: *Subcategorized Parcels*.

Throughout the consolidation process, some specific areas have been identified that require special instructions. Please refer to the following.

- Street Road and 9N & 74
 - When these two districts were created, the boundaries appear to be offset a specific distance from the road. Although the reason is not known as to why the boundaries were drawn this way, the Town has chosen to not change the Street Road and 9N & 74 District Boundaries (excluding the extensions that are below NYS 74/22) at this time. Additionally, some parcels located in the existing district boundaries are areas without infrastructure in place to service users. A large number of the residents that are in the areas described above do not wish to be connected to the public water system. The Town has decided to contact these users to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.
- Summit Street, Wayne Ave, & 3rd Ave
 - Some parcels that are being added to the district are serviced with private water mains that the Town currently does not wish to maintain due to the condition of pipes. For the logistics of drawing the proposed district boundaries, the Town has included some parcels under the following conditions. The Town has determined that there shall be a caveat that describes that the water mains are not to be taken over by the Town until the lines have been upgraded in accordance with the Town's Water Use Law.
- Mt Hope Ave
 - Some parcels that are being added to the district are serviced with private water mains that the Town currently does not wish to maintain due to the condition of pipes. For the logistics of drawing the proposed district boundaries, the Town has included some parcels under the following conditions. The Town has determined that there shall be a caveat that describes that the water mains are not to be taken over by the Town until the lines have been upgraded in accordance with the Town's Water Use Law.
- Individual Partial Parcels
 - Electrical Utilities
 - For the ease of drawing boundaries, some electrical parcels will remain as partial parcels. The district boundary could not be easily drawn around the property boundaries without causing larger issues in the consolidation process.
 - Partial near Abercrombie St.
 - Only a very small amount of the property is located within existing district boundaries, classifying it as a "partial". The property in question does not currently receive a bill nor use water from the Town's water distribution system. A letter is to be sent to the property owner to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.
 - Partial near Defiance St.
 - Only a very small amount of the property is located within existing district boundaries, classifying it as a "partial". The property in question does not currently receive a bill nor use water from the Town's water distribution system. A letter is to be sent to the property owner to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.
 - Partial on NYS Route 22
 - Only a very small amount of the property is located within existing district boundaries, classifying it as a "partial". The property in question does not currently receive a bill nor use water from the Town's water distribution system. A letter is to be sent to the property owner to determine if they wish to stay in the district or considered for removal if the NYS Legislature approves.

AES, Town Staff, and the Town Attorney have met numerous times and generated multiple reports and documents throughout the overall process. For your convenience, such reports have been compiled in a single appendix.

Refer to **Appendix B**: *Previous Reporting*.

Next Steps

Now that all parcels associated with the water district consolidation have been identified and classified, it is time to present the proposed district to the Town Board and the public.

A presentation to the Town Board should be made to outline the recommendations from the working group and if the Town Board agrees with the recommendation, a letter shall be sent out to affected parcel owners. Affected parcel owners are those that are proposed to receive a change in status. The letters will request comments from the parcel owners and based on those comments, adjustment may be made to the proposed district if the working group and Town Board agree. After a set period of time for receiving responses from the letters, the final district can be presented to the public. The formal Map, Plan, and Report process can then commence.

As always, AES is extremely grateful for our relationship with the Town of Ticonderoga and will continue to strive for excellence and successful projects. If there are any questions, please do not hesitate to reach out.

Sincerely,

A handwritten signature in black ink, appearing to read 'G. Swart PE', with a stylized flourish at the end.

Gregory M. Swart, PE
Partner and Director of Water Resources Division

NOTICE OF TERMS

delivered by the New York State Environmental Facilities Corporation
relating to
the agreement
dated as of June 1, 2006, as amended, between
New York State Environmental Facilities Corporation
and

TOWN OF TICONDEROGA
Project No.: D0-17164
(EFC Series 2006 C)
Dated: July 1, 2015

1. This Notice of Terms is being delivered pursuant to the agreement referred to above, as amended by the Closing Certificate and Supplemental Agreement dated July 1, 2015 (the "Project Finance Agreement"). All capitalized terms used but not defined herein shall have the respective meanings set forth in the Project Finance Agreement.
2. The terms of the Financing, in addition to those set forth in the Project Finance Agreement, are amended as set forth below, including **Schedule A** attached hereto. The Recipient shall use the attached **Schedule A** for future debt service payments.
3. Pursuant to the Project Finance Agreement (see Section 4.1 of the Closing Certificate and Supplemental Agreement dated July 1, 2015) the Recipient Bonds remain in full force and effect.
4. The Recipient's Annual Administrative Fee shall be due annually as set forth in **Schedule A**.

Notes:

- (1) Recipients are required to prepay the debt service above on the first of the month payment due.
- (2) Subsidy Credit is calculated based on Corpus or Reserve Allocation percentage of Existing Agreement.
- (3) In the event that the Benefit of the Refunding exceeds the interest payable on any specific payment date, the difference will be credited on a later payment date or dates. Should there be excess Benefits of the Refunding remaining after the final maturity and full repayment, such excess will be remitted to the Recipient by the Corporation.
- (4) The Annual Administrative Fee is due on August 15 which may reflect a change from the Existing Agreement.
The amount due in 2016 is pro-rated from last payment prior to the Effective Date.
Administrative Fee rate is pursuant to the Existing Agreement.
Aggregate amounts may differ from totals due to rounding.
